Gilded Frame

If you're an art lover looking to visit Chicago, then you've come to the right place. River North, where this delightful one-bedroom is located, has the highest concentration of galleries in the US, after Manhattan. You'll also be next to Millennium Park, Ohio Street Beach, the Cloud Gate and the Lincoln Park Zoo. Stay in the thick of it, and rejoice in the apartment's massive floor-to-ceiling windows, high-speed internet and memory foam mattress. You can cook a hearty breakfast ahead of a day's sightseeing in the fully fitted kitchen (complete with a coffee machine and dishwasher). And at the end of the busy day, flop onto the couch and watch your favourite show on the smart TV before getting some top-notch sleep. The building has some extra perks too, like 24-hour security and a Whole Foods grocery store right downstairs. It's practically a masterpiece in its own right.
